# Reminders in Anniversary

## Introduction

You can add reminders to all anniversary's and birthday's in the calendar.

This is a Microsoft Outlook COM Add-in.

Now you can have reminders in all of you Anniversary's or Birthday's, choosing the reminder time (15 minutes, 1 Hour, 1 Day, 1 Week or 2 Weeks)

This add-in will automatically put all those anniversary's or birthday's reminders where they belong (in the Calendar) this way you won't miss this important events.

This add-in is easy to work with, is inside Outlook, and has an extremely simple user interface

## System Requirements

- Outlook 2000<sup>1</sup> to have access to Mail.

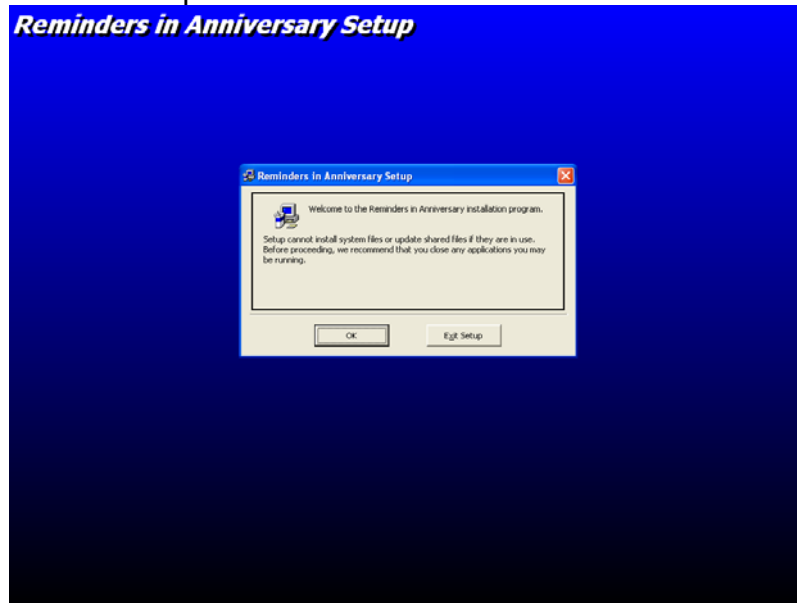

---

<sup>1</sup> This software has been tested with Outlook XP and Outlook 2003 (v. Beta 2) and it works correctly.

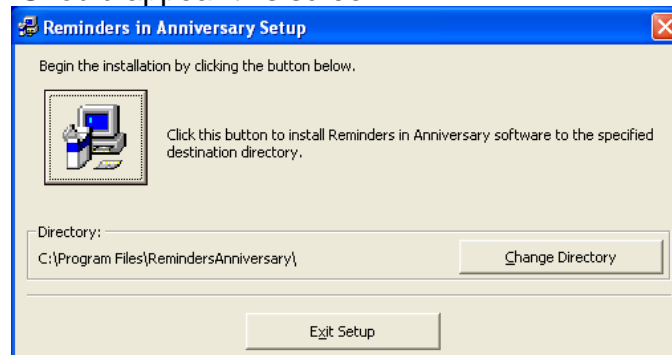

## Installation manual

To install Reminders in Anniversary, follow these steps:

1. Double-click Setup.exe to install the feature.

2. Click OK. Should appear this screen.

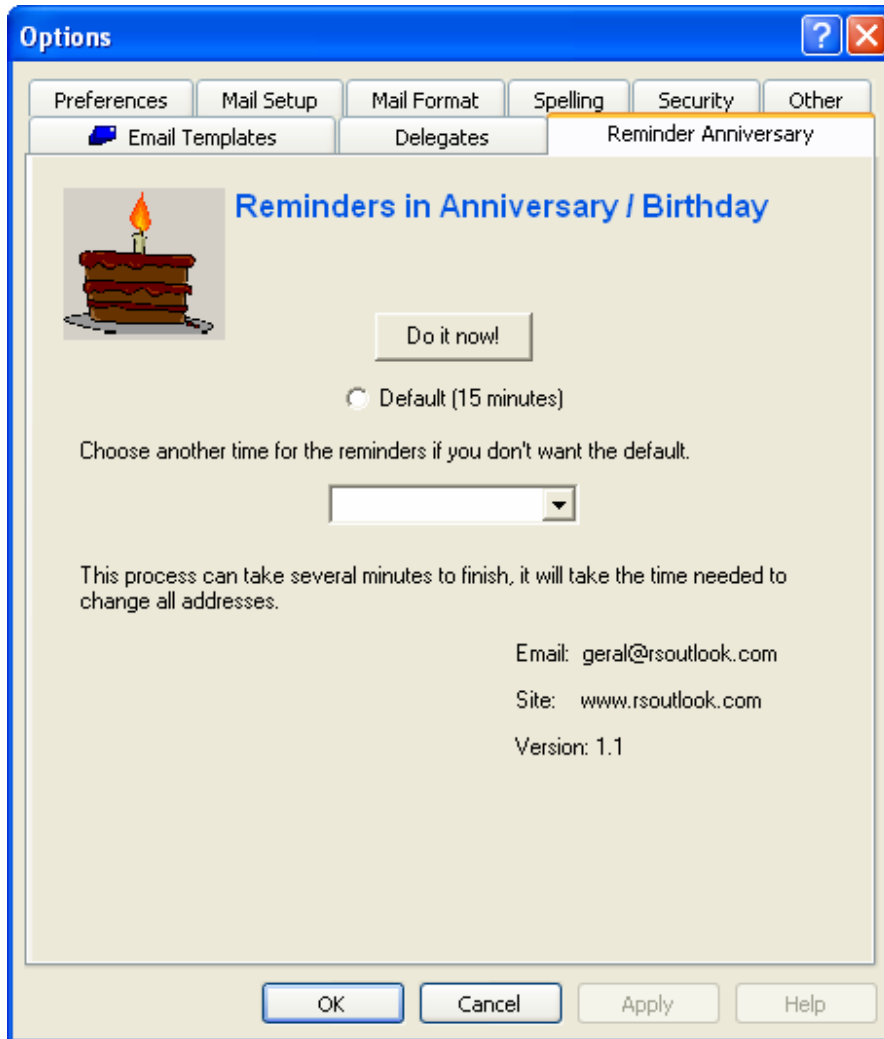

3. Select the path for your installation and click the button.

4. To verify that the installation was successfully, open your Outlook, and go to menu **Tools, Options** and you should have a new tab by the name of **Reminder Anniversary**.

## Utilization Manual

To use all of the program versatility, choose the time you want to add to your reminders (anniversaries and birthday's) and then click in the button Do it now!, and you will receive a message for successful or unsuccessful.
